

Aizah Sarfaraz

Computer Science Engineering Student — Full Stack Developer

+91-9153847815 | aizahsarfaraz0786@gmail.com | GitHub | LinkedIn

Professional Summary

Computer Science Engineering student skilled in Java, Full Stack Development, Machine Learning, React.js, Node.js, Express.js, MongoDB, REST APIs, and Data Structures Algorithms. Open Source Contributor at GSSoC'26 with 100+ LeetCode problems solved.

Education

Government Engineering College, Vaishali

CGPA: 8.33/10.0

B.Tech in Computer Science Engineering

Expected Graduation: 2027

College of Commerce, Arts and Science, Patna

78.2%

Class XII

Technical Skills

Programming Languages: Java, Python, C++, C, JavaScript

Frontend: HTML5, CSS3, Bootstrap, React.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Leadership & Experience

- Open Source Contributor at GirlScript Summer of Code 2026 (GSSoC'26), contributing to collaborative software development projects.
- Coordinator at Entrepreneurship Cell (E-Cell) and Active Member of Coding Club, Government Engineering College, Vaishali.

Projects

Nari Suraksha AI

Python — Streamlit — Machine Learning

- Developed an AI-powered women safety platform featuring emergency alerts, live location tracking, WhatsApp SOS messaging, fake call assistance, and Google Maps integration.
- Applied Machine Learning techniques for threat analysis and safety monitoring.
- Designed a responsive user interface for improved accessibility and user experience.

TheStudyHub

Node.js — Express.js — MongoDB — JavaScript

- Built a full-stack library and seat-booking platform with secure authentication, memberships, reservations, and admin dashboard.
- Developed RESTful APIs using Node.js and Express.js with MongoDB integration.
- Implemented responsive interfaces and role-based access control for users and administrators.

TaskFlow

Node.js — Express.js — MongoDB — JavaScript

- Developed a task management web application featuring secure authentication, CRUD operations, RESTful APIs, and task tracking.
- Implemented MongoDB database integration and responsive dashboards.
- Used Git for version control throughout the development lifecycle.

Internships & Training

Uniconverge Technologies Pvt. Ltd.

AI/ML Intern

- Worked on Machine Learning workflows involving data preprocessing, feature engineering, model training, and evaluation using Python.
- Assisted in developing AI-based applications and improving model performance through data analysis.

CDAC Drone Bootcamp

Training in drone technologies, robotics, autonomous systems, and embedded applications.

IDE Bootcamp

Participated in innovation, entrepreneurship, and technology-driven problem-solving activities.

Achievements

- Open Source Contributor – GirlScript Summer of Code (GSSoC'26)
- NEC'24 Advanced Track Runner-Up
- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Participant – iHub IIT Roorkee Innovation Program
- Certified Participant – CDAC Drone Bootcamp
